CIRCULAR

Subject: Restrictions on Holi celebration due to uncontrolled coronavirus spread - Reg

A deadly infection started spreading in December 2019, in the city of Wuhan, China. Measures to control the spread of the virus were taken immediately, but three months down the line, we have seen the entire globe getting affected and witnessed a number of deaths due to COVID-19.

It has been figured out the virus spreads from humans to humans, due to close contact, and is spread by the droplets due to sneezing or coughing.

India celebrates Holi every year, and we usually enjoy the festival by having mass gatherings and playing with colours, water and close contact.

In the event of uncontrolled spread of coronavirus and deaths due to that across the globe at an alarming rate, celebrating Holi the usual way can be quite dangerous and is equivalent to playing with fire.

All of you are required to refrain using colours, playing water games and close contact at all cost for Holi this year, during this corona season.

No matter where you are, be it at a hostel, your rented apartment, please stay safe during this festive and unsafe season, stay safe don't invite danger.

Be responsible, please don't invite danger, don't spread danger.

Wish you all a safe Holi in advance. We all must stay healthy and fit to enjoy our life beyond this season.
